

# Local Calling

## About Access2Go

Access2Go, Inc. is a leading national provider of Data, Voice and Internet to small, medium and large business. By offering unparalleled support and product selection we have grown into the Premier Switchless Carrier in the marketplace.

Access2Go, Inc. has relationships with (IXC's), Local Exchange Companies (LEC's) Competitive Local Exchange Companies (CLEC's) and Competitive Access Providers (CAP's). We have developed a comprehensive method that allows us to map out the solutions and paths that are best for a given customer regardless of whether they are on one carrier or across networks.

## Offerings

**Local T1** – Access2Go offers full Traditional 24 Channel Voice T1's. These lines are perfect for customers that have only one type of traffic, whether that is inbound or outbound.

**Local PRI (ISDN)** circuits generally are configured as 23 B channels +1D channel. This allows (23) usable voice channels with a separate D channel for transmitting data like Caller ID information. The dynamic ability of the ISDN to allocate incoming and outgoing calls allows for better utilization. These circuits provide crystal clear voice due to the digital nature.

**Integrated Access** – Access2Go provides a full communications solution by combining local, long distance and Internet Access all over the same circuit. These circuits can be configured in many different combinations of voice to data and tailored to meet the specific needs of the individual customer. This provides the ultimate in flexibility.

- Traditional 24 Channel T1's
- ISDN PRI's
- Integrated Access with all equipment provided
- All products with Local, Intrastate and Interstate calling ability

## Applications

We have an option to fit the needs of all businesses, big or small. Whether you need one circuit that carries all your voice and data or you have a call center we have the solution for you.
