

Long Distance

About Access2Go

Access2Go, Inc. is a leading national provider of Data, Voice and Internet to small, medium and large business. By offering unparalleled support and product selection we have grown into the Premier Switchless Carrier in the marketplace.

Access2Go, Inc. has relationships with (IXC's), Local Exchange Companies (LEC's) Competitive Local Exchange Companies (CLEC's) and Competitive Access Providers (CAP's). We have developed a comprehensive method that allows us to map out the solutions and paths that are best for a given customer regardless of whether they are on one carrier or across networks.

Offerings

Access2Go offers a complete range of cost savings Long Distance programs. Whether your company needs switched or dedicated services we have the solution for you. Using comprehensive analysis programs designed exclusively by Access2Go we will determine what type of service and plan is best for you.

Switched Long Distance refers to the access of a long distance provider (Access2Go, Inc.) through a non-dedicated access medium, such as a RBOC or LEC (local telephone company, i.e.: Qwest, Verizon, Bell South and AT&T) provided on a business line. By adding a PIC and/or LPIC (Carrier Code) to the local line, customers have the ability to dial 1+ long distance calls. The 1+ dialing allows you to dial IntraLata, IntraState, Interstate and International Calls. Changing your existing Long Distance provider is as easy as changing your carrier code and no additional hardware is needed.

Dedicated Long Distance refers to the access of a long distance provider through a dedicated circuit. A Dedicated T1 circuit is a dedicated digital communication link that offers 1.544 Mbps. It is used for carrying long distance traffic over 24(64k) channels. By installing a dedicated long distance voice T1/DS1, customers have the ability to dial long distance calls directly into Access2Go's network and avoid costly local line charges through their RBOC or LEC (local telephone company, i.e.: Verizon, AT&T, and Qwest).
